OXY PRO

Professional White Knight Cream Cleanser

OXY PRO 82 Professional White Knight Cream Cleanser comes to the rescue, combining the powerful cleaning benefits of oxygen and natural pumice to get the tough cleaning jobs done.

This product releases added oxygen and hydrogen in a reaction that increases solubility and cleaning power. The natural pumice provides the abrasion needed for deep cleaning without scratching or marring surfaces.

More effective than powdered cleansers that scratch surfaces.

No need for abrasive scouring pads that scratch surfaces.

Deep cleaning formula with pumice works to remove surface stains.

Ideal for use on most water-safe hard surfaces:
Stainless steel, aluminum, ceramic tile, formica, fiberglass, and many plastics.
