

United's **OXY PRO 278 Professional Coil Cleaner** puts the powerful cleaning benefits of oxygen right in your hands. This formula releases added oxygen and hydrogen in a reaction that increases solubility and cleaning power. Penetrates and lifts stains and soils.

**This OXY PRO formulation:**

- Penetrates and dissolves slime, scale, and deposits to both clean and brighten chiller and evaporator coils without harsh scrubbing.
- No harsh fumes.
- Great for aluminum, copper, and iron-based metals.
- No etching of metals.
- Hypoallergenic – contains no dyes, no fragrances.
- Clings to vertical surfaces.
- Easy-to-use...Spray it on. Let the foaming, fizzing action go to work.

**DIRECTIONS FOR USE:**

1. Spray **United 278** on coils to be cleaned. Let product remain in contact with surface for 10 to 20 minutes. You may wish to reapply product once or twice during that time to keep coils wet as the product goes to work on coil deposits. Tougher build-up may require a second application and some agitation with a scrub brush.
2. Always rinse with water.

**DO NOT use this product on painted surfaces.** Avoid overspray near painted surfaces.

**WARNING**  
**KEEP OUT OF REACH OF CHILDREN.**
