

When the crew works hard, they sweat. They get dirty. They may even get a little stinky. From time to time, they may need a quick, clean refresher. When running water or a shower is not available, turn to **CREW-CLEAN Body Wipes** to help with these issues.

CREW-CLEAN will help keep your working crew feeling:

Clean • Refreshed • Deodorized

DIRECTIONS FOR DISPENSING:

Remove lid. Pull towels up from the center of the roll and twist into a point. Open the closure mechanism of the lid and insert the open-holed triangular side piece through the notched opening in the lid. Insert towel through the triangular opening and then from top of lid, pull the lid closure back out, feeding the towel through the lid.

DIRECTIONS FOR USE:

Wipe down that sweaty neck and brow. Wipe the dirt off the arms and hands before a coffee or lunch break. These wipes are gentle enough to use all over your body, throughout the day.

CREW-CLEAN Body Wipes feature eucalyptus oil, providing a light fresh fragrance that quickly dissipates.

CREW-CLEAN will also help the crew feel cooler. As the moisture from the wipes dries from the body, they'll get that natural evaporative cooling effect.
